

Technical drawing of a rectangular plate with rounded corners. The overall width is 298.00 and the overall height is 220.00. The corners are rounded with a radius of R160.0. The plate features a grid of circular holes. Section lines A-A and B-B are indicated.

Technical drawing of a part with a circular feature. A callout circle labeled '1' points to a feature with the following specifications:

- 2x $\varnothing 5,00$
- $+0,025$
- $0,000$

4x 66.3

4x 40.9

8x 20.0

8x 80.0

8x 20.0

1/4-20 Threaded, 0.5" depth

NOTES	
1	These two holes are used for alignment and should match up with corresponding holes in FACEPLATES
2	Axes of these counterbore holes should be within ± 0.05 degrees of their design tilt and holes should be centered within $\pm 0.025\text{mm}$ from the axes
3	Each of the counterbore holes have 1 accompanying alignment pin hole.
4	Hole distribution is symmetric about B and C
